

SUPPORT FOR EMPLOYEES AND EMPLOYERS

In today's world, finding motivated and dedicated workers is more difficult than ever. S2L: Career Path staff can help you find your next successful employee by:

- Matching you with job candidates who meet your specific needs
- Providing intensive on-the-job training to assist participants as they master necessary vocational skills
- Supplementing each participant's work to ensure productivity during initial training
- Providing ongoing on-site support to you and the participant

ARE YOU...

- A business, organization, or educational facility in the Lehigh Valley?
- Interested in partnering with a local disability service organization?
- Interested in hiring dedicated, long-term employees?
- Interested in learning about tax incentives for hiring persons with disabilities?

In Partnership with:

A comprehensive program that matches qualified and motivated young adults with disabilities to employment opportunities at Lehigh Valley businesses and organizations

610-770-9781 EXT. 131

S2L: Career Path

Working with S2L: Career Path Can Help Your Bottom Line!

Employers across the Lehigh Valley have discovered the benefits of hiring people with disabilities. For example:

- Employers who hire candidates from S2L: Career Path are eligible for generous tax incentives
- Employees with disabilities have a far lower one-year attrition rate than the general population.
- Candidates can be trained on site by Vocational Coaches, at no cost to employers.

S2L: Career Path Can Help You Add a Person With a Disability to Your Workforce!

S2L: Career Path provides future employees with the skills to succeed in the workplace. S2L services for participants include:

- Workplace skill development including problem solving, teamwork and customer service.
- On site visitation, job shadowing, assessments and training.
- Intensive case management and problem resolution with an overall goal of competitive employment.

Career Path

wants to work with you!

Career Path staff network with local businesses and organizations to identify and create opportunities for young adults with disabilities.

In addition, we work with local businesses, organizations and educational institutions to provide real-world work experiences for our program participants. These partnerships let us identify and develop each participant's job skills.
