

Career Path

Are you...

- A business, agency, organization, or educational facility in the Lehigh Valley?
- Interested in partnering with a local disability service organization?
- Interested in working with people with disabilities?
- Interested in teaching future employees job skills and responsibilities of employment?
- Interested in learning about possible tax incentives for hiring persons with disabilities?

We can help!

The **S2L: Career Path** program can help you learn about the assets and incentives of hiring young adults with disabilities (ages 18-25).

Program participants take part in seminars on vocational and life skills topics (such as writing a resume, creating a portfolio, and practicing interviewing skills), job coaching, job shadowing, career exploration at job sites throughout the Lehigh Valley, one-on-one support, and person-centered plans. *You can be a part of their transition to the workforce!*
